

# Metastatic spinal cord compression

We are proud to have launched our Metastatic Spinal Cord Compression (MSCC) Service, which aims to be a high quality service following the latest guidelines in the treatment of Metastatic Spinal Cord Compression.

The information is here as a guide for patients and professionals and will provide useful links to relevant information.

The [MSCC Patient Information](#) provides information on what you can expect when you are seen at the RNOH. We have outlined the pathway for you.

The [MSCC Professional Information](#) includes an online [MSCC referral form](#) and referral criteria.
