

# Approval and Post Approval

*Note: Conducting research without relevant permissions is illegal.*

## Approval

The approval / permission required to conduct research depends on the type of research you are conducting.

- R&D Approval
- Regulatory Approval
- Sponsorship Approval
- Service Evaluation Approval

## Post Approval

Approvals and Amendments – If a researcher or sponsor decides to change any aspect of the study i.e. procedure, team member etc, this should be submitted as an amendment.

NIHR in your area

Annual Reporting/Safety Reporting/End of study notification

**Monitoring / Audit** - The R&D office carries out random monitoring of 10% of approved studies. You will receive ample knowledge of our visit should your study be selected.

**Archiving:** Please contact the R&D office via [research@rnoh.nhs.uk](mailto:research@rnoh.nhs.uk) for information on our archiving policy.
