

Baby hip clinic for developmental Dysplasia

The RNOH has a dedicated baby hip clinic which runs every Monday morning for babies screening positive for DDH (Developmental Dysplasia of the Hip).

The hip service includes :

- Fast track appointments
- Ultrasound scanning
- Pavlik harness treatment
- Access to weekly clinics
- On-going follow up and treatment as required

Referrals are accepted from Consultants and GPs and can be sent to:

*Baby Hip Clinic,
Catterall Unit,
RNOH,
Brockley Hill,
Stanmore, HA7 4LP*
