

Stanmore Open Day - Sat 18 May 2019

27 March 2019

On Saturday, May 18 we host another Stanmore Open Day. This is an annual event which provides a rare opportunity to see behind the doors of a world-leading specialist hospital.

The event is open to anyone of any age to help them understand what we do. It's also for patients to come and have the opportunity to see our hospital from a different perspective and we hope it will also inspire young people to take up careers in clinical research & innovation.

Places are very limited so please register now to avoid disappointment.

Registration is now closed
