Foot, Ankle & Lower Limb

The Foot and Ankle Reconstruction Unit at the RNOH is led by recognised consultants with international reputation, each with specialised expertise in the management of a wide range of foot and ankle problems including sports injuries, arthritis and deformity.

Patients benefit from a multidisciplinary approach with rheumatologists, sports doctors, on-site orthotists, specialist nurses, physiotherapists, occupational therapists, podiatrists and physicians assistants.

Our surgeons are invited to lecture internationally and have produced many articles and textbooks about foot and ankle surgery.
