

# PACS image sharing

The Royal National Orthopaedic Hospital (RNOH) is now able to share images digitally, using PACS exchange and Burbank Electronic Image Portal.

Digital image sharing **MUST NOT** be used to exchange images for teaching, research or clinical trials. We will only accept requests for import or export of images when:

- Patient care is transferred from a clinician at one organisation to a clinician at another
- The ongoing patient care is shared between clinicians at more than one organisation as part of clinical network service
- Imaging is reviewed within a Multidisciplinary Team Meeting (MDTM) as part of an agreed clinical network service
- An urgent clinical opinion is required from a specialist clinician at another organisation  
PACS exchange

To request image import or export via PACS exchange, please complete the [external imaging transfer request form](#) and e-mail the request to [rno-tr.RNOH-PACS-EXCHANGE@nhs.net](mailto:rno-tr.RNOH-PACS-EXCHANGE@nhs.net).

Incomplete requests will be rejected.

## Electronic image portal

The RNOH is now connected to Burbank Electronic Imaging Portal (IEP) sharing solution.

## Out of hour's emergency requests

In an emergency (between 17:00 and 08:30 Monday to Friday and weekends), please make a request by following the guidelines above and contact the on-call radiographer via the hospital switchboard on 020 3947 0100.

If you have any question please contact the Trust PACS manager on 020 8909 5395 or email PACS administrators on [rno-tr.RNOH-PACS-EXCHANGE@nhs.net](mailto:rno-tr.RNOH-PACS-EXCHANGE@nhs.net).
