

Royal National Orthopaedic Hospital Trust

Trust Board Meeting - Executive Summary

Report Title:	February Staffing Report (Hard Truths Commitment)	
Date: 8/3/17	Author: Karen Mannion, Project Nurse / lead for Implementation of safe staffing Tool	Lead Director: Professor Paul Fish, Director of Nursing
Is a decision required by the Board?		
Purpose of Paper:	To inform the Trust Board of the details and summary of planned and actual inpatient ward staffing on a shift-by-shift basis and to advise about wards (if any) where staffing falls short of what is required to provide quality care, the reasons for the gap, the impact and the actions being taken to address the gap.	
Key information and conclusions:	<p>This paper is presented to the Board following publication of How to ensure the right people, with the right skills, are in the right place at the right time: a guide to nursing, midwifery and care staffing capacity and capability (Nursing Quality Board, 2013).</p> <p>The information provided supports decision making; enabling the Board to evaluate risks, seek assurances regarding contingency planning, mitigating actions and incident reporting and ensure that the Executive Team is supported to take decisive action to protect patient safety and experience.</p> <p>Care hours per patient day (CHPPD) will be collected monthly from May 2016 and moving to daily collection from April 2017.</p> <p>There were three incidents reported by the wards relating to 'staffing levels' filed by the inpatient wards during February.</p> <p>The planned vs actual staffing levels is still within safe limits, at 98.72%</p>

Risk Assessment**:	N/A	

Principal Objectives to support strategic aims

(Linked to Strategic Aims and key performance indicator targets (KPIs) categories: Quality, Access, Finance, Management and Productivity)

1	Maintain clinical excellence and high quality outcomes for patients	7	Improve workforce effectiveness and engagement
2	Achieve agreed activity levels	8	Deliver planned in-year service developments
3	Deliver in-year transformation programme target	9	Meet milestones to achieve Foundation Trust status and long term service sustainability programme

4	Improve the quality of our buildings and facilities		10	Further develop academic track record	
5	Meet in-year milestones for enabling projects for new Stanmore site development		11	Continue to develop relationships and partnerships to help achieve Trust vision	
6	Provide timely, accurate and comprehensive clinical management information		12	Maintain financial control	

1.0 Introduction

1.1 The Nursing Quality Board (*How to ensure the right people, with the right skills, are in the right place at the right time: a guide to nursing, midwifery and care staffing capacity and capability, 2013*) requires hospitals to collect and publically publish individual NHS inpatient ward staffing levels on a shift by shift basis. In line with the guidance, this report ensures the Trust Board:

- a) Receives an update containing details and summary of planned and actual inpatient ward staffing on a shift-by-shift basis and Care hours per patient day. Adult and paediatric in-patient units only are reported in the data, which is uploaded monthly via UNIFY.
- b) Is advised about wards where staffing falls short of what is required to provide quality care, the reasons for the gap, the impact and the actions being taken to address the gap

1.2 The information provided supports decision making, enabling the Board to:

- 1) Evaluate risks associated with staffing issues.
- 2) Seek assurances regarding contingency planning, mitigating actions and incident reporting.
- 3) Ensure that the Executive Team is supported to take decisive action to protect patient safety and experience.

1.3 This report and the details within it can be found on the Trust website, and also via the NHS Choices page (Stanmore site). The detail from the recent in-depth establishment review is contained in the report '*6 Monthly Staffing Capacity and Capability Report (Hard Truths Commitment)*' which was presented at the December 2016 Trust Board.

1.4 This report has been compiled using the information provided by the wards in real-time. The Intranet (Grapevine) supported staffing tool has been launched and has been in use since 1st October 2014. For transparency, all staff with access to the Grapevine are able to review the staffing levels, though permission is required to input data. An Insight report has been generated to present the data in the same format as the UNIFY upload.

2.0 Summary

2.1 E-Rostering has been approved at the Executive team meeting and implementation plan is currently under development.

2.2 The planned vs actual staffing levels is still within safe limits, at 98.72%

2.2.1 All adult inpatient wards (excluding Alan Bray Unit) are currently undertaking the first of the quarterly acuity reviews using the NICE recommended Safer Nursing Care Tool (SNCT). The tool has not been ratified for use in I.T.U / H.D.U or Paediatrics and therefore these areas will be excluded from this review.

3.0 Quality Impact of Staffing

3.1 There were three reports of staffing issues filed by the inpatient wards during February 2017.

- One report from Ian Monro ward concerned that a potential planned move of a HCA to another ward area would have left the ward unsafe due to a bariatric patient (requiring 3 to transfer) the ward escalated their concerns to the site manager who advised for the HCA to remain on the ward.
- One report from AMU of a nurse feeling pressurised due to having to cover the site bleep resulting in staff having to stay late to ensure all care was delivered.
- One report from ADU / Coxon ward of a bank nurse becoming unwell during their night shift.

4.0 Vacancies and list of current recruitment activity

4.1 There continue to be a number of wards and departments that have pressure in relation to recruitment and retention. These pressures are being experienced nationally and have resulted in the migration advisory committee making a recommendation on 15th October to place nursing on the home office shortage occupation list.

4.2 Theatres, paediatrics, Duke of Gloucester, outpatients (paediatrics) and Spinal Cord Injury Centre ward have vacancy levels which are driving high numbers of temporary staff use.

4.3 In relation to band 5 posts, which are of primary concern in relation to safe staffing there is currently a 22.53% (WTE 58.76) vacancies in the Trust. This is an increase of 6.35% (19.55 WTE) from December 2016. There are currently 4 WTE Band 5 Nurses going through pre-employment checks and 1 WTE given a start date. The next set of Band 5 interviews are due to take place on 13/3/17

4.4 International recruitment: 39 offers were made, including 13 for theatres. 1 nurse has since withdrawn their application. The candidates are currently going through the process to enable them to register with the NMC.

4.5 A detailed recruitment and retention action plan is in place and is being coordinated jointly by the Director of Nursing and Associate Director of Workforce and OD.

Table 2: Band 5 Vacancies per Department

Table 3: Band 5 Vacancies / Recruitment stages per Department

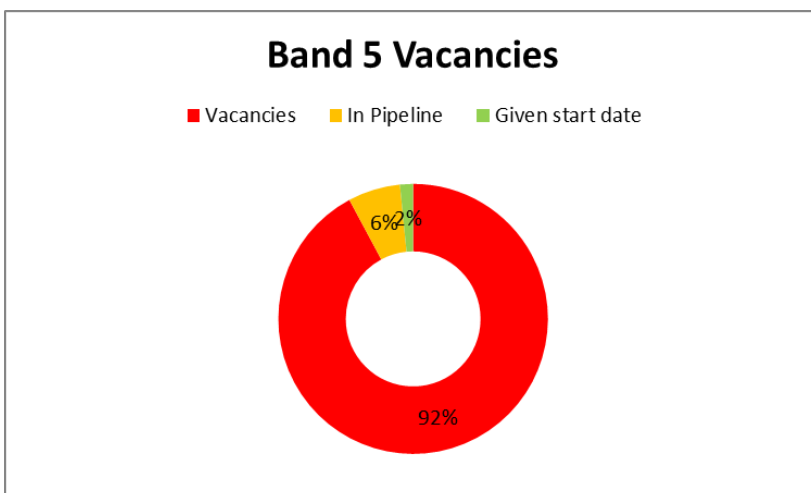

Table 4: Band 5 Recruitment Stages

5.0 Care Hours Per Patient Day

- 5.1 The Lord Carter Review highlighted the importance of ensuring that workforce and financial plans are consistent in order to optimise deliver of clinical quality and use of resources. The review recommended that Care hours per patient day (CHPPD) is collected monthly (beginning in April 2016) and for this to be collected daily from April 2017.
- 5.2 The CHPPD approach to recording and reporting builds upon the Nursing Hour per Patient Day (NHPPD) practice we have seen in Western Australia, New Zealand, and the US, where local senior leaders have greater control and flexibility in deploying staff, with greater effectiveness. This has also demonstrated improvements in quality and patient outcomes.
- 5.3 CHPPD are calculated by taking the actual hours worked (split into registered nurses/midwives and healthcare support workers) divided by the number of patients at midnight this is shown in table five.

Table 5: Care Hours for Patient Day - February 2017

	Care Hours Per Patient Day (CHPPD)			
	Cumulative count over the month of patients at 23:59 each day	Registered midwives/ nurses	Care Staff	Overall
Adolescent/Coxen Ward	304	5.9	1.5	7.3
Alan Bray Unit	210	15.6	1.3	16.9
Angus McKinnon Unit	358	5.9	2.9	8.8
Duke of Gloucester	517	5.6	2.5	8.1
Ian Monro Ward	176	8.8	3.7	12.5
Margaret Harte Ward	357	6.3	3.1	9.5
Phillip Newman Ward	40	23.0	6.7	29.7
Rehabilitation Unit	392	2.9	1.3	4.2
Short Stay Unit	430	9.3	4.4	13.7
Spinal Unit	581	5.0	4.2	9.2
Ward 4	401	6.3	2.7	9.0

- 5.4 Phillip Newman ward have a higher CHPPD at 23:59 (29.7) compared to the CHPPD using the bed occupancy at 15:00 this is due to the number of day case patients and the ward closing overnight on 7 occasions.
Table six shows the CHPPD using the bed occupancy at 15:00.

- 5.5 The CHPPD does not reflect the throughput of patients during the day particularly SSU, and the Paediatric unit.

Table 6: Care Hours for Patient Day at 15:00 - February 2017

	Care Hours Per Patient Day (CHPPD) 15:00			
	Cumulative count over the month of patients at 15:00 each day	Registered midwives/ nurses	Care Staff	Overall
Adolescent/Coxen Ward	397	4.5	1.1	5.6
Alan Bray Unit	152	21.6	1.7	23.3
Angus McKinnon Unit	383	5.5	2.7	8.2
Duke of Gloucester	571	5.1	2.2	7.4
Ian Monro Ward	185	8.4	3.5	11.9
Margaret Harte Ward	382	5.9	2.9	8.9
Phillip Newman Ward	94	9.8	2.9	12.6
Rehabilitation Unit	405	2.8	1.3	4.0
Short Stay Unit	660	6.1	2.9	8.9
Spinal Unit	587	4.9	4.2	9.1
Ward 4	444	5.6	2.5	8.1

6.0 Percentage Qualified

6.1 Table 7 shows the percentage of registered staff for the past three months.

Table 7: Qualified staff as percentage of total

Ward	Dec-16	Jan-17	Current Month
Adolescent/Coxen Ward	72.32%	76.49%	80.07%
Alan Bray Unit	93.41%	91.36%	92.60%
Angus McKinnon Unit	65.85%	65.92%	66.78%
Duke of Gloucester	70.41%	69.47%	69.49%
Margaret Harte Ward	65.56%	69.37%	66.90%
Private Patient Unit	74.88%	74.04%	72.76%
Rehabilitation Unit	71.22%	69.73%	68.70%
Short Stay Unit	68.54%	71.05%	68.05%
Spinal Unit	52.75%	53.01%	54.06%
